Creating Communities Mini-Grants

Funding is available through the university’s Howard Hughes Medical Institute grant for student groups in the College of Natural Sciences & Mathematics to support activities that create opportunities for interaction for the membership and/or promote career development. Requests for funding will be reviewed the first Friday of each month until funds are exhausted.

Funds can be requested to sponsor on-campus events, joint projects, and advertising. Funds cannot be used to support travel. Requests should be for no more than $500.

Submit Applications to Dr. Donna Pattison, 108C Science Teaching Laboratories Building

Name of Student Organization:______________________________________________

Faculty Advisor:__________________________________________________________

Student Organization Contact Information:

Name:__________________________________________________________________

Phone Number:___________________________________________________________

Email Address:___________________________________________________________

Amount of funding requested:_______________________________________________

Date by which funds are needed:_____________________________________________

Please attach a one-page summary explaining the nature of the request. Include a budget which lists a breakdown of costs for materials, honorariums, equipment costs, etc.
