FYI from the UAC

It's April, which means it's time to enroll for next semester's courses! You will see your enrollment appointment posted on your myUH account in your Student Center; on the right side of the screen, there will be a box labeled "Enrollment Dates" and a date will be listed. Click on that date, and you'll be able to see the exact time that you can start enrolling for Winter Mini-Session and Fall 2014 classes. Be sure to check out the offered SEP Fall 2014 workshops as well as meet with your academic advisor before your enrollment appointment so you can put yourself in the best position possible to succeed this spring.

Spotlight

NSM's next Culture & Science event, "Take Me Out to the Ball Game", is happening on Friday, April 11 at Cougar Field Baseball Stadium. NSM faculty, staff and students are invited to enjoy a short lecture on the physics of baseball and a picnic dinner, then watch UH take on the Louisville Cardinals. For more information, RSVP details and ticket prices, click here.

UAC Update: April 2014

Important Dates & Deadlines

Campus Connection

It's time for end of semester projects and tests, and in just a few short weeks it will be time for finals. There are many resources available to give you some last minute help:

- Learning Support Services: tutoring in almost any subject
- Scholar Enrichment Program (SEP): tutoring in math and science
- CASA: Math tutoring
- Physics Learning Center: Physics help
- American Chemical Society: Chemistry tutoring
- Geosciences Learning Center: support for GEOL courses
- Writing Center at UH: assistance on writing papers

For a comprehensive list of campus resources, please visit the UAC website's Support Services page.

Meet your Advisor: Tristan Jackson

Name: Tristan Jackson
Majors I Advise: Computer Science, Mathematics, and Mathematical Biology
Educational Background: I have a Bachelors of Business Administration in Human Resource Management and Masters of Public Administration for Lamar University.
Likes: Cooking, watching Scandal, helping people, traveling, and the color pink
Dislikes: Houston traffic, being unprepared, slow computers, and being late
Advice for UH Students: As a college student, you are taking vital steps toward doing something that you really want to do, even if you are not yet sure of what this might be. It is so important to realize the possibilities and the choices in front of you. Nothing worthwhile is easy, as the old saying goes, and this certainly is true of a college education. A successful college career requires years of hard work, and you can't expect to be a success without devotion and sacrifice.
Favorite Quote: "If you don't go after what you want, you'll never have it. If you don't ask, the answer is always no. If you don't step forward, you're always in the same place." –Nora Roberts
You May Not Know: I drive really slow and very careful. I have been working in Higher education for over 6 years.
Accomplishment I'm most proud of: I would say my greatest accomplishment I am most proud of thus far has been graduating college and starting my first "big girl" job which was advising. I feel like I have grown up a lot since I started college as well as accomplished more than I expected from myself. When looking back on who I was before I started college and who I am now I'm shocked by the transformation but I'm also humbled by all I've learned about the world and myself. Also, learning to drive and obtaining my driver license.
