FYI from the UAC: Transfer Credit

Many UH students have transfer credit from other institutions. A student can use a maximum of 66 lower level transfer hours (grades of C- or higher) towards their UH degree; if you transfer more than the maximum, UH will apply the courses most applicable to your degree before applying non-required courses or free electives. Your last 30 hours towards your degree must be taken at UH, so it's important to complete any courses you intend to transfer before you begin your last 30 hours. Students should submit their transfer credit electronically (usually this request can be done through the sending school’s website) to speed up processing time. If you choose to submit them in person, be sure to submit an official transcript in a sealed envelope. Please keep in mind that transferred courses will count for course credit, but not towards your GPA. If you have any questions about your transfer credits, be sure to visit your advisor in the Undergraduate Advising Center for more information.

Spotlight: Seeking NSM Ambassadors!

Interested in contributing to NSM while adding leadership to your resume? NSM is now accepting applications for new NSM Ambassadors! To qualify, you must be:
- a full-time student and NSM major
- have a GPA of 3.0 or better after three semesters at UH
- have two years of full-time study at NSM remaining.

To learn more, please visit the NSM Ambassadors website.

Campus Resources: UH Social Media

Connecting with NSM and UH has never been easier! You probably know about NSM’s Facebook page, but did you know that we’re also on Twitter (@NSMUAC) and LinkedIn? UH is also all over social media. Follow the University’s official Facebook page for news and events across the university, or check out the official accounts on Twitter (@UHouston) and Instagram (@universityofhouston) for information and fun contests. There is even a Pinterest account and YouTube channel dedicated to all things UH. Get connected, follow, and like to stay up to date on what’s happening at your university!

Meet Your SEP Program Manager: Ryan Sauvé

Name: Ryan Sauvé

My Position at UH: I am a Program Manager with the Scholar Enrichment Program (SEP). Our goal is to help students be successful in their math and science courses/degree pathways. We provide workshop courses that are all peer-led by fellow undergraduate students, free tutoring, and a computer lab full of Mac laptops that can be checked out for use. We also have a scholarship program called the Houston-Louis Stokes Alliance for Minority Participation (H-LSAMP) to help support students financially.

Educational Background: I received my BS and MAT degrees from Northeastern University in Boston, Massachusetts.

Likes: Going on 4 years in Houston and I’m still nowhere close to exploring all that this city has to offer. I enjoy getting out and experiencing the neighborhoods around this city - everything you could want is right here from parks, museums, restaurants, live music, etc. So much to do!

Dislikes: I would love to see more mass transit in a city like Houston. I love taking the bus into work instead of driving - but getting to other points in the city aren’t always as feasible. I’m really excited for the new rail lines to be finished.

Favorite thing about UH: The community feel of the University is really great. It’s a wonderful feeling to come in every day and see so many hard working students and staff, all supporting each other and working towards the same goals.

You May Not Know: I am a proud (and often tired) father of a 2 year old boy and 2 month old girl!

Accomplishment I’m most proud of: I have now survived 4 summers of Texas heat. Considering I was born and raised in Syracuse, NY I think this is quite the accomplishment!
